

# INTRODUCING A NEW SERVICE TO HELP IMPROVE THE ENERGY EFFICIENCY OF YOUR HOME!

## Did you know?

- Failure to Clean is the leading cause of dryer vent fires in residential dwellings.
- 2,900 home clothes dryer fires are reported each year and cause an estimated 5 deaths, 100 injuries, and \$35 million in property loss.
- More home clothes dryer fires occur in the fall and winter months, peaking in January.

\*facts from U.S Fire Administration

Let us help save you energy, time & money! The National Fire Protection Agency recommends, "once a year or more often if you notice that it is taking longer than normal for your clothes to dry." Not only will your home be safer after your dryer and vent have been cleaned, but your clothes will take less time to dry and you'll save on your energy bill!
